

Sprint Stand Up #2

Date of the Standup: Thursday, 4/17/2025

Group #4

| | |
|---|---|
| <p>Developer Name: Fatma Saafan</p> | <p>Current Branch URL: react-demo1 repo - main branch https://github.com/Fatma-S/react-demo1</p> <p>Simple_html repo - 1-login-view branch https://github.com/Fatma-S/simple_html/tree/1-login-view</p> |
| <p>Progress:</p> | <ul style="list-style-type: none"> - Created React repo called react-demo1. - Linked the repo to the project on GitHub. - Modified the app by <ul style="list-style-type: none"> ● Removing all the files from the src folder except index.js and adding LoginPage.js file to the src folder. ● Modifying the index.js file in the src folder by adding a reference to the LoginPage file. ● Adding a server folder that has a SQL folder for the login.sql file with the students' and instructors' IDs and names. ● Working on the LoginPage.js file. |
| <p>Challenges:</p> | <ul style="list-style-type: none"> ● I kept getting errors when I tried to execute the application because the connection between files was not correct. ● I was not sure how the project that has more than one repo works, and how to link my branch on the simpl_html repo to the react-demo1 repo. |

| Developer Name: Sam Danso | Branch Name: Course Creation View Current Branch URL: https://github.com/Fatma-S/simple_html/tree/course-creation-view |
|--|--|
| Progress: | <ol style="list-style-type: none"> 1. Created a local react folder named course-creation, consisting of src and public folder and other json files. 2. Committed the folder into the existing Course-Creation-View Branch on GitHub. 3. Created a dashboard that shows courses created by the instructor. |
| Challenges: | <ol style="list-style-type: none"> 1. Difficulty using react in code manipulations. 2. Encountered errors while executing the code. 3. Tried several methods before the local folder could commit to the GitHub branch. |
| | |
| Developer Name: Jelani Howard | Current Branch: https://github.com/Fatma-S/simple_html/tree/26-instructor-dashboard-user-story |
| Progress: | <ol style="list-style-type: none"> 1. Created and uploaded index.html file using template given 2. Created and uploaded src folder with index.js, index.css, App.js and ActiveCourses.js files 3. Got a general outlook of the Instructor |

| | |
|------------------------------------|--|
| | Dashboard web interface (without all the styling) |
| Challenges: | <ol style="list-style-type: none"> 1. Grasping the React framework and the concepts shown in class. Used to working in plain Vanilla Javascript. 2. Common coding challenges such as debugging for errors |
| | |
| Developer Name: Kim Stevens | Current Branch URL: Student-Dashboard https://github.com/Fatma-S/simple_html/tree/Student-Dashboard |
| Progress: | <ul style="list-style-type: none"> • Collaborated with Professor Etudo to resolve ssh issues. • Created and uploaded src folder and all files • Created 'Create database student_dashboard.sql script that creates the DATABASE Student_Dashboard, creates TABLE Students, creates TABLE Attendances and INSERTS test data into Students and Attendances • Created StudentDashboard_index.js • Created .dashboard.css file • Initiated StudentDashboard_index.html • Reviewed |
| Challenges: | <ul style="list-style-type: none"> • Continuing to work through linking Github with local machine files • Understanding React and coding challenges |
